

Service Bulletin

Subject: Required Stocking List

SCOPE: REVISED MHCFA (HEATED CABINET)

Revised 12/05/2017

Below is the REVISED critical stocking parts list necessary to support our customers for the legacy Merco units in the field. This service bulletin cancels and replaces MER_SB_0011.

The 700 watt, 230V Heater Assy (000-CRG-003D-S) highlighted below is limited in supply. Once those are depleted, they will be replaced with the 450 watt, 230V Heater Assy (000-CRG-003F-S). Continue to use up any remaining stock.

Timer bars, previously only available from ICC, are now available from KitchenCare and have been added to the list. The 3X4 and 2X4 cabinets are the most common in Burger King stores and their timer bar part number is highlighted in the list below.

Order the quantity of parts to support the number of units in your area depending on the model population.
